#### Welcome to ExamCollection.com!

Have you ever prepared for a certification exam using PDFs or braindumps? If yes, then I think you will agree with me that using practice test software is more comfortable and efficient way to prepare.

The purpose of this site is to help you use **TestKing**, **ExamSheet**, **ActualTest**, **Braindumps** and other PDFs **as practice exams**, not the multipage text documents as most of us have used it.

Here you can download free practice tests for such certifications as **MCSE**, **MCDBA**, **MCSA**, **A+**, **Network+**, **Security+**, **CCNA**, **CCNP**, and so on. All tests on this site have been created with **Visual CertExam Suite**. Visual CertExam Suite is an exam simulator developed for certification exam preparation. You can also use it as a **Trandumper replacement**. Files with **VCE** extension can be opened with this program.

The image shows two screenshots from the Visual CertExam Suite application. The left screenshot displays a practice exam question with multiple-choice options. The right screenshot shows an 'Evaluation Score Report' with a progress bar and a table of scores for various sections.

**Will it help me?** Just look at our [I'm Certified](#) forum.

Here you will find files that have .vce extensions in their names that are test question banks for many types of cert exam. These file are free to download. However, to open the files, you need the Visual CertExam Manager. To get there, click on the graphic on the right side of the screen:

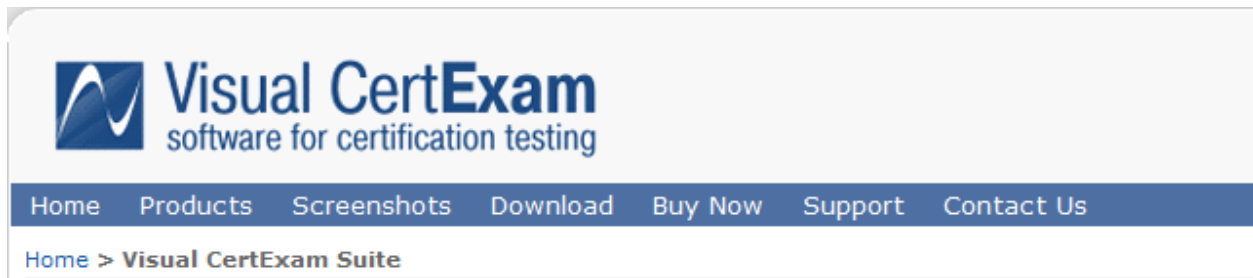

### How to Open VCE Files

Files with **VCE** extension can be opened with [Visual CertExam Suite](#).

**Don't buy the suite, as it costs more than the ExamManager. Once you are here:**

**Click on *Products*. Click on *Visual CertExam Manager* to get this page:**

**Click on Buy Now and then buy the Exam Manager Personal License for 19.95. We use it here and the test banks are often quite good and very helpful for taking all types of cert exams.**
